PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with hands-on experience building and deploying full-stack web applications using the MERN stack. Comfortable working across the stack, from designing REST APIs and handling image uploads to building responsive React interfaces. Currently strengthening Data Structures & Algorithms and expanding into TypeScript for more scalable frontend development.

EDUCATION

DIT University, Dehradun

Bachelor of Technology in Computer Science and Engineering | CGPA: 7.72 | 2023–2027

County Wide Public School

Intermediate (CBSE) | 2021–2022

PROJECTS

Mini Post App | *React.js, Node.js, Express.js, MongoDB, ImageKit*

- Developed a full-stack social media application allowing users to create, view, and upload posts with images.
- Implemented REST APIs for post management and integrated image uploads using ImageKit.
- Built a responsive UI with React and managed backend logic with Node.js and Express.

GitHub: <https://github.com/chetandhapola2004/mini-post-app> | Live Demo: <https://chetan-mini-post-app.vercel.app/>

Employee Management System | *Java, OOPs*

- Built a Java-based Employee Management System applying core OOP concepts including classes, objects, inheritance, and encapsulation.
- Implemented functionality to add, update, and manage employee records efficiently.

GitHub: <https://github.com/chetandhapola2004/Employee-Management-System>

Weather Forecast App | *React.js, JavaScript*

- Built a weather forecasting web application with real-time data fetched from a public weather API.
- Implemented a responsive UI with dynamic city search functionality.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, TypeScript, HTML/CSS, Dart

Frameworks: React, Node.js, Flutter

Databases: PostgreSQL, MongoDB

Tools: Git, GitHub, Docker, VS Code

Libraries: Express.js, Axios, Tailwind CSS

CODING PROFILES

- LeetCode: Solved 200+ Data Structures & Algorithms problems across arrays, strings, trees, and dynamic programming.
